

Nastavení gmail účtu pro propojení s modulem helpdesk

For correct functionality is necessary to set in PBX's settings: **Settings** → **Queues** → **required email queue** → **Incoming mail server** → **SSL** → **Yes**.

If you are setting email queue which will be assigned with gmail.com account, be sure that in gmail account's settings **My account** → **Security** → scroll down for **Less secure apps access** is set to **ON**.
